No-Cost Health Care

We Put Your Health First

No-Cost Quality Health Care

The biggest barriers to quality medical care are access and cost. With The City of Tulsa offering access through the CareATC Health Centers at no cost for the services provided to you, your spouse, or dependents on the health plan – receiving fast, quality health care just got easier! This includes on-site labs and generic medications.

Plus enjoy the added benefits of a dedicated health center that is not open to the general public. This provides greater access to quality care. No more long waits in a crowded waiting room or feeling rushed at your appointment.

The Power to Be Well

- Consistent care from board-certified medical providers offering in-person and virtual care appointments
- Preventive, illness, minor injuries care and chronic disease management
- No-cost labs at your visit
- Free generic medications at your visit with no-cost mail delivery prescription refill options
- Easy and fast appointment scheduling
- Yearly Personal Health Assessment
- 100% HIPAA compliant
