QUESTIONS:

1. Will a total cleanout be done each time? We are trying to determine how to bid this contract.

No, we typically only have the Seller cleanout until 1' from the bottom of the lagoon to avoid damaging the bottom of the lagoon or lagoon liner. However, we currently have a lagoon that is leaking, and it may need a total cleanout depending on what the geotechnical engineers say regarding getting boring samples and repairing the lagoon. Thus, we want the option to do a total cleanout should it be necessary. Please bid appropriately and do not low bid the total cleanout portion as you may be asked to do it. The pricing is based on the number of gallons that we would typically cleanout in a year, and the one million gallons for the total cleanout is the approximate amount that would be from the 1' line to the bottom of the lagoon, which would need to be cleaned out if we requested a total cleanout.

2. The Bid asks that Sellers utilize the ramp. Are Sellers able to move around the lagoon?

You can move around the lagoon. However, please do not damage the walls of the lagoon. Be aware that damage to the walls of the lagoon will be the Seller's responsibility to repair (see Bid Specifications Item 206.10). Most Seller's setup on the ramp for lagoons 3 and 4 as it also facilitates loading the trucks as they circle around the lagoon.

3. Where are the fields located and what is the approximate round-trip mileage?

Field	Roundtrip distance	Coordinates
Osage County Fields	45 miles	36.33256, -96.04948
Rogers County Fields	34 miles	36.42379, -95.74299
Horse Ranch	34 miles	36.11574, -95.72017

4. Does the City of Tulsa have a preferable season that they like to work in?

The City prefers to work in the summer months as there will be less rainfall and this will minimize downtime. Fiscal year contracts also open in July, so that is when money for each year's cleanouts becomes available. Thus, most lagoon work is done between July and November. By finishing by November, that also ensures that things are completed before the temperatures reach freezing. Likewise, April and May tend to be wet in Oklahoma.

5. What are the typical hours of operation?

The Agreement states 7 a.m. to 7 p.m. five days a week, but the City understand that the Seller has employees in town in hotels and wants to complete the project as quickly as possible. The Engineer would approve of 7 a.m. to 7 p.m. seven days a week, however, there have been issues with residents complaining about trucks coming and going as you get near farmer's fields. It has also resulted in the County Commissioner getting involved in one location. This explains the reasoning for the 7 a.m. to 7 p.m. times. Any work done late at night at the lagoon, should be coordinated with the Operations staff as operators may need to come out to the lagoon at night for routine work. This communication will minimize staff getting injured due to the amount of heavy equipment being moved around.

6. What kind of equipment is allowed down in the lagoons?

Bid Specification Item 206.5 states the following “The equipment used in the bottom of the lagoon must not exceed 5.0 psi of ground pressure or leave compaction, cutting of deep ruts and/or other damage to the clay liner. Prior to use, the Seller must submit manufacturer’s specifications including information regarding ground pressure of the equipment to the City, for final approval.” The City also requires that the Seller limit the use of equipment in the bottom of the lagoon to daylight hours only.

7. Is badge access required?

Badge access is not required. There is a gate off 56th Street North that provides access to the lagoons. The gates to the plant are closed from 6 p.m. to 6 a.m. However, the drivers shouldn’t need routine to access the plant. If it becomes necessary, the Seller can get the site foreman to a Seller badge.

8. What are the sampling requirements?

The City will provide the cups, and the Seller is asked to collect two 250 mL cups of the lagoon sample each day. These will be collected at the same time. The cups can then be dropped at the Operations Building to be placed in a fridge. City staff will handle the samples from there. The City will submit one for pH, % Total Solids, and Sludge Density. The other cup will be stored in a fridge to do a composite sample at the end of the lagoon.

9. About how thick is the sludge in the lagoon and what are the application rates that you typically apply?

Early in the lagoon cleanout the City aims for about 17,000 gallons per acre, and as the cleanout goes further and the sludge gets thicker, the City aims for about 15,000 gallons per acre. Early in the cleanout, the sludge is around 4% solids and towards the end of the project it is near 7-8% solids. The composite of all the daily samples is about 5-6% solids.

10. Can you please tell me how the project has been operated in the past?

Typically, the City will survey the lagoon with a member of the Seller’s team present, and from the Survey team’s 12-15 measurements, we will get an average elevation of the sludge in the lagoon. After agreeing on that elevation, the Seller is allowed to start. In the past, a crawler has been used to mix the lagoon’s contents, while a tractor with a power-driven pump has been used on the lagoon ramp to pump the lagoon contents into the tankers hauling the biosolids to the field. See Question 3 above regarding locations of the fields. The City requires that the fields be aerated prior to land application. After applying the biosolids, the City requires that incorporation take place via a tractor pulled harrow or similar device (see Bid Specification Item 218.4).

11. Will biosolids removal be occurring in all 4 lagoons this year?

No. We budget for at least two lagoon cleanouts. Currently, Lagoon 5 is leaking and is out of service. Lagoons 3 and 4 are the lagoons currently in service and will most likely be the two lagoons that the City requests to be cleaned out. The City added the Decant Lagoon to the Agreement as there is at least 5' of sludge in that lagoon, so a cleanout of it will need to occur at some point. The amount to be cleaned out is largely budget driven for the City.

12. Will all 4 lagoons be released at the same time for biosolids removal? If they will only be released one at a time, what is the time frame between lagoons being cleaned for the next one to be released?

No, the City only allows one lagoon to be cleaned out at a time. Once the Seller believes that they have reached the 1' line in the lagoon, they can request a survey. If that survey passes, then that lagoon is complete, and we can move to the next lagoon at that same time and survey the next lagoon to be cleaned out. The reasoning for one lagoon cleaning at a time is to ensure Operational staff has a place to discharge from the digesters on a daily basis. It also ensures completion of the lagoon cleanout to avoid procrastination of finishing it up.

13. Is the 120 days for completion for each lagoon or for the entire project?

The 120 days would be for each lagoon. The City will notify the Seller of which lagoons that the City would like to have cleaned out. As previously stated, this will likely only be two lagoons. The reasoning for the number of days to ensure the project gets completed. However, the City understands that weather events happen and can delay things. The intent is more to ensure the Seller doesn't just leave and not come back for 90 days, which puts the lagoon out of service during that time. While the lagoon is under a cleanout, the discharge port is plugged to ensure nothing is discharged into the lagoon after the survey has taken place. This puts the lagoon out of service to Operational staff. In the past, Sellers have been able to cleanout one lagoon in about 30-45 days.

14. What is the overall timeline for completing the project?

See Question 4 above regarding the season that we typically like to work.

THE REMAINDER OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK

If You have any questions or need additional information, contact the Assigned Buyer:

Angie Tune, Senior Buyer | atune@cityoftulsa.org
*All questions should be emailed with **TAC 838i** on the subject line.*

Submit Bids (sealed) to:

City of Tulsa – City Clerk’s Office
 175 E. 2ND St., Suite 260
 Tulsa, OK 74103

*Bids (2 total:1 original, 1 copy) must be sealed and either mailed or delivered. Write the Bid Number, Supplies or Service requested (as listed above) and Bid Opening Date on the lower left corner of the outside of Your Bid envelope. Feel free to use included packing slip. No faxed or emailed Bids will be considered. Barring certain circumstances (Section III-5), Bids received after the stated date and time **will not be accepted and will be returned to the Bidder unopened.***

I. STATEMENT OF PURPOSE:

1. Overview and Goals

The goal of this solicitation is to secure a source to provide Liquid Biosolids Disposal by Land Application services for the Northside Wastewater Treatment Plant for use by the Water and Sewer Department of the City of Tulsa.

2. Term of Contract

The City intends to award a one-year annual contract. The City may offer the Seller the opportunity for additional one-year terms. The City also reserves the right to make multiple or partial awards. To do business with the City, You must agree to the terms and conditions of the City's standard Purchase Agreement, indicated by Your **Authorized Agent's** signature on the Purchase Agreement.

Capitalized terms used in this IFB and not defined in the Purchase Agreement shall have the meanings as ascribed to them in Title 6, Chapter 4 of the [Tulsa Revised Ordinances](#).

The entire Invitation for Bid (IFB), including any additional information submitted by Bidder and Accepted by City will be included as part of the Agreement between Seller and City. **All sheets of this IFB (including Sections I-VI) must be submitted.**

Authorized Agent

Several parts of the Bid (Affidavits, Purchase Agreement) must be signed by an **"Authorized Agent."** An **Authorized Agent** means an agent who is legally authorized to bind the Seller under the law of the state in which the Seller is legally organized. For instance, under Oklahoma law, the **Authorized Agent** for each of the following types of entities is as stated below:

- **Corporations** – the president, board chair or board vice chair (or the vice president if the corporation was formed in Oklahoma) can sign; others can sign if they have and provide the City with (i) a corporate resolution giving them authority to bind the Seller, and (ii) a recent certificate of secretary indicating the authority is still valid and was in full force and effect on the date of the signature. (See IFB Section VI for sample of a Certificate of Secretary)
- **General Partnerships** – any partner can sign to bind all partners.
- **Limited Partnerships** – the general partner must sign.
- **Individuals** – no additional authorization is required, but signatures must be witnessed and notarized.
- **Sole Proprietorship** – the owner can sign. Any other person can sign if s/he provides a recent Power of Attorney, signed by the owner, authorizing him/her to bind the sole proprietorship.
- **Limited Liability Company (LLC)** – any manager of the LLC elected by the members of the LLC, or any member signing as manager of the LLC. All other signers will need a Consent of Members signed by all the Members of the LLC authorizing their signature on or up to 30 days before the date of their signature. (See Section VI for sample of a Consent of Members)

Entities organized in states other than Oklahoma must follow the law of the state in which they are organized.

II. SCOPE OF SERVICES AND SPECIFICATIONS

1. Scope of Services

The City is requesting Bids for Liquid Biosolids Disposal by Land Application services for the Northside Wastewater Treatment Plant for use by the Water and Sewer Department.

Delivery Requirements

All prices quoted shall be based on delivery F.O.B. Tulsa, Oklahoma or to any other points as may be designated in the Specifications, with all charges prepaid by Seller to the actual point of delivery. Bids must state the number of Days required for delivery under normal conditions.

Absolutely no items over 500lbs. may be directly shipped to the City requiring the City personnel to unload from the shipping truck or trailer. The City carries no responsibility for any damages incurred during an unloading occurrence. All unloading shall be the responsibility of the Seller and/or shipping entity.

2. Specifications

The Bid **must** meet or exceed the following Specifications.

201.0 GENERAL:

Services will take place at the Northside Wastewater Treatment Plant, which generates anaerobically digested Class B biosolids that are currently stored in three lagoons prior to liquid land application. There is a fourth lagoon that serves as a decant lagoon.

201.1 The Seller agrees to load, transport, apply, and incorporate all biosolids, as required, stored within the Northside facility. Historically, removal of biosolids has been carried out to leave approximately one foot (1') of biosolids in the lagoons to ensure protection of the clay liners. The Seller, at the option of the City, shall remove all biosolids from the lagoons specified or remove biosolids to leave approximately one foot (1') remaining. In either case, care must be taken by the Seller to not disturb the lagoons' protective clay liners.

The Seller's obligation to complete the removal of material from each lagoon will be **120 calendar days** from notification in writing from the City to commence work on each lagoon. The actual pay quantity will be based upon the volume of material contained in each lagoon after removal of all readily pumpable material by the City, as determined by measurements made just prior to commencing work under this Agreement. These measurements shall be made by City survey crews, with all computations of pay quantity volumes performed by the City. All survey notes and computations will be furnished to the Seller. The City and the Seller must arrive at a mutually agreeable volume for the purpose of payment prior to commencement of work.

The Northside Wastewater Treatment Plant produces, and land applies an average of 17,000,000 gallons of biosolids per year. The quantity stated in Bid Item No. 204.1, 204.2, and 204.3 of the Exhibit A, Delivery and Pricing page, is an estimate to be used for bidding purposes only. The Seller will be paid on a per gallon basis and must provide sufficient equipment to load, transport, apply, and incorporate all biosolids as required within the IFB.

201.2 The City's contact person during the term of this Agreement is Steven Meier, Support Services Manager, Water and Sewer Department (herein referred to as the "Engineer").

202.0 QUALIFICATION REQUIREMENTS FOR BIOSOLIDS REMOVAL

202.1 The Seller shall have performed five (5) projects similar in scope, and in accordance with all applicable laws and ordinances and shall hold a current applicable license to perform such services.

202.2 The Seller shall provide the following information for qualification with the Bid.

202.2.1 Experience in loading, pumping, transporting, unloading, and land applying biosolids. It is not required that the Seller have experience in the State of Oklahoma. Reference list of at least five (5) similar projects, showing:

- a) Locations
- b) Distance Hauled
- c) Size and type of trucks and or trailers used on work
- d) Quantities Hauled
- e) Materials Hauled
- f) Contact Name and phone number

202.2.2 Statement of Bidder's thorough understanding of the regulatory agencies' requirements in the State of Oklahoma that apply to the proposed method of biosolids disposal.

202.2.3 Seller has 10 days after notification that their Bid was selected for contract award by the City to provide a list of all equipment proposed to be utilized including:

- a) Type of Equipment
- b) Manufacturer
- c) Model
- d) Year
- e) Hauling Capacity

202.3 Bidders who have been previously qualified for any biosolids removal or disposal contracts **are not exempt** from the requirement to submit qualification information as required in 202.2 above.

203.0 BIOSOLIDS REMOVAL AND DISPOSAL

203.1 Seller shall remove biosolids with a float mounted dredge, raft or biosolids pump, except that during the early phase of emptying the lagoon, when biosolids depth and flow characteristics make it feasible, the Seller may then use a farm type tractor and power take-off driven type pump or similar combination or arrangement of equipment, subject to the approval of the City, provided that the tractor and associated equipment rest entirely upon the existing concrete lagoon ramp. Any pump or equipment shall not be placed on the side slopes of the lagoon without permission of the City.

203.2 Seller shall be responsible for the removal, transportation, land application, earth incorporation, and all other work and operations incidental to disposal of biosolids contained within the Northside Wastewater Treatment Plant lagoons in accordance with these Agreement documents.

204.0 BID ITEMS

204.1 LABOR, EQUIPMENT, AND MATERIALS NECESSARY FOR PARTIAL CLEANOUT OF BIOSOLIDS CONTAINED WITHIN THE NORTHSIDE LAGOONS PER THE IFB. BID IS UNIT PRICE PER GALLON.

204.1.1 The Services under this item shall consist of the labor, equipment, and materials to remove with a float mounted dredge, raft or biosolids pump, biosolids contained within each lagoon to the average surface elevation given and to dispose of said biosolids by land application as described in these Agreement documents. Each lagoon shall be emptied of biosolids to an average surface elevation that has historically been achieved. This elevation is approximately one foot (1.0') higher than the lagoon's average bottom elevation. All biosolids above this elevation shall be removed as well as removal of all grass clots, grit, and other nonvolatile substances that protrude above the surface of the lagoon on the sides. The debris shall be mixed in with the contents of the lagoon in order to establish a uniform percent solid. Mileage under this bid item will be 40 miles round trip. Routes shall be determined by the City.

No reimbursement shall be made for any biosolids removed below this elevation. Seller shall remove:

Biosolids in Decant Lagoon to an average surface elevation of 574.8 feet.
Biosolids in NS Lagoon 3 to an average surface elevation of 576.0 feet.
Biosolids in NS Lagoon 4 to an average surface elevation of 575.0 feet.
Biosolids in NS Lagoon 5 to an average surface elevation of 575.6 feet.

204.1.2 The dimensions of each lagoon are described in the Payable Volume Calculation Worksheets, provided in the Specifications. Bidders shall obtain all dimensions and measurements and depths of biosolids to determine the biosolids quantity and through biosolids sampling and analyses determine pertinent biosolids characteristics for bidding purposes. The Bid is for the actual volume of biosolids above the average surface elevation given in 204.1.1.

204.1.3 PAYMENT: Payment for this item shall be made at the unit price per gallon of material removed from each lagoon to the extent given in 204.1.1 and incorporation into the soil at the application sites selected by the City. The quantity stated in Bid Item No. 204.1 of Exhibit A, the Delivery and Pricing page, is an estimate to be used for bidding purposes only. The actual pay quantity will be based upon the volume of material contained in each lagoon after removal of all readily pumpable material by the City as determined by measurements made just prior to commencing work under this bid item. These measurements shall be made by City survey crews, with all computations of pay quantity volumes performed by the City. All survey notes and computations will be furnished to the Seller. The Payable Volume Calculation Worksheets, provided in these Specifications, shall be used to determine the mutually agreed upon volume prior to commencement of work.

204.1.4 Haul routes to and from the application sites shall be determined by the City before each trip.

204.2 LABOR, EQUIPMENT, AND MATERIALS NECESSARY FOR CLEANOUT OF BIOSOLIDS BELOW 204.1.1 ELEVATIONS (TOTAL CLEANOUT) CONTAINED WITHIN THE NORTHSIDE LAGOONS PER THE IFB. BID IS UNIT PRICE PER GALLON.

204.2.1 The services under this item shall consist of labor, equipment, and materials to remove all biosolids contained within each lagoon below the average surface elevation left after partial cleanout specified in 204.1 and to dispose of said biosolids by land application as described in the IFB. Each lagoon shall be emptied of biosolids to the bottom elevation or shall be emptied to an elevation slightly above the bottom elevation at the discretion of the Engineer.

204.2.2 The dimensions of each lagoon are described in the Payable Volume Calculation Worksheets, provided in the specifications. Bidders shall obtain all dimensions and measurements and depths of biosolids to determine the biosolids quantity and through biosolids sampling and analyses determine pertinent biosolids characteristics for bidding purposes.

204.2.3 PAYMENT: Payment for this item shall be made at the unit price per gallon of material removed from each lagoon to the extent given in 204.2.1 and incorporation into the soil at the application sites selected by the City. The quantity stated in Bid Item No. 204.2 of Exhibit A, the Delivery and Pricing page, is an estimate to be used for bidding purposes only.

The actual pay quantity will be based upon the volume of material contained in each lagoon after removal of all readily pumpable material by the City as determined by measurements made just prior to commencing work under this bid item. These measurements shall be made by City survey crews, with all computations of pay quantity volumes performed by the City. All survey notes and computations will be furnished to the Seller. The Payable Volume Calculation Worksheets, provided in these Specifications, shall be used to determine the mutually agreed upon volume prior to commencement of work.

The Total Cleanout Payable Volume Calculation Worksheets, provided in these Specifications, shall be used to determine the mutually agreed upon volume. The Seller's provided rod man shall measure the depth of biosolids from the lagoon floor surface to the average elevation required by 204.1. The measurements will be evenly distributed throughout the lagoon. The City will provide the measuring rod. The average depth of biosolids will be utilized on the Total Cleanout Payable Volume Calculation Worksheets to calculate the payable volume of biosolids in each lagoon for this item.

204.2.4 Haul routes to and from the application sites shall be determined by the City before each trip.

204.3 COST PER MILE FOR EACH 1,000 GALLONS HAULED FURTHER THAN 40 MILE ROUND TRIP HAUL ROUTE INCLUDED PER THE IFB. BID IS UNIT PRICE FOR 1,000 GALLONS PER MILE.

204.3.1 This bid item is for payment per mile of each 1,000 gallons of biosolid hauled further than 40-mile round trip haul route from the entrance gate at the Northside Wastewater Treatment Plant to the entrance of the field.

- 204.3.2 Application sites and haul routes to and from the sites shall be determined by the City before each trip.
- 204.3.3 Haul routes will not include any Turnpike routes. Should the Seller decide that using the Turnpike is more efficient in reaching the site, then the Seller will be responsible for any Turnpike fees associated with the transportation of biosolids to the site.
- 204.3.4 PAYMENT: Payment for this item shall be for quantities determined by the City. Prior to work under this item, the City will issue a work order with the quantity in gallons of biosolid to be hauled; the round-trip haul route miles over 40 miles to the selected application site; and the pay amount for the selected site. Seller shall show their concurrence with said information by signing the work order and returning to the City. Only when the City and Seller mutually agree upon the pay amounts for the selected site will work commence under this item.

205.0 REMOVAL OF FREESTANDING WATER

- 205.1 Prior to the survey to calculate the payable volume of material, the City will draw off all freestanding water or pumpable material. After the freestanding water has been removed, the City will, within two (2) working days perform a survey of the top-of-biosolids, to determine its level, for calculating the payable volume of material to be removed.
- 205.2 After start-up of operations, Seller will be able to pump from the lagoon freestanding surface water resulting from rainfall to a discharge point designated by the City. The transfer of freestanding water by the Seller shall be performed only under direct City supervision and the City shall allow the operation only when it shall not interfere with the operation of the treatment plant or biosolids lagoon system. Suspended solids in the water pumped shall not exceed 250 ppm. At the end of the day, Seller will email to the City's Engineer, a picture of the rod attached to the decant structure/catwalk showing the elevation of the sludge.
- 205.3 The City reserves the right to restrict the pumping rate of freestanding water to meet treatment plant and/or lagoon operational requirements.

206.0 MISCELLANEOUS PROVISIONS

- 206.1 The Seller shall furnish all labor, equipment, and supplies including water except as designated herein.
- 206.2 Seller shall strictly observe precautions stated in Section 219, Spill Prevention and Control Plan.
- 206.3 The City may allow, at its option, Seller to use track equipment within the lagoon for total cleanouts. Northside Wastewater Treatment Plant's lagoons have been clay lined in accordance with the State of Oklahoma Department of Environmental Quality (ODEQ) Guidelines, having a two feet (2') thick clay liner. This liner has no protective cover material.
- 206.4 The equipment must be low ground pressure equipment of a track type, without cleats, as approved by the City.
- 206.5 The equipment used in the bottom of the lagoon must not exceed 5.0 psi of ground pressure or leave compaction, cutting of deep ruts and/or other damage to the clay liner. Prior to use, the Seller must submit manufacturer's specifications including information regarding ground pressure of the equipment to the City, for final approval.

- 206.6 Use of track equipment in the lagoon should be during daylight hours only.
- 206.7 Track equipment shall be used to crowd biosolids toward the dredge, mobile biosolids raft, or pump suction. All apparatus used for blading or dragging will require City approval.
- 206.8 Seller must use extreme caution not to damage or harm the lining of the lagoon.
- 206.9 Seller may not dig any sumps in any of the lagoons.
- 206.10 It is understood and agreed by the parties hereto that the dams, walls, or dikes surrounding all lagoons as well as the bottom and side slopes of each lagoon are permanent in nature. Any damage thereto by Seller will be repaired by Seller.
- 206.11 Seller will supply sufficient resources to handle biosolids at a rate sufficient to remove and dispose of said biosolids in a timely and responsible manner and within the number of consecutive calendar days specified in Section 207, Scheduling.
- 206.12 Seller shall be responsible for the removal and proper disposal of all debris, including but not limited to grass clods, grit, and other nonvolatile substances within lagoons 3, 4, 5, and decant lagoon, which protrude above the surface of the lagoon on the bottom and sides. The debris shall be mixed in with the contents of the lagoon in order to establish a uniform percent solids.
- 206.13 When Seller believes the surface elevation of each lagoon being emptied is approaching the required elevation, Seller may request a survey. Said survey will be conducted as specified in Section 214 to determine fulfillment of Agreement requirements. The City will perform all computations of average surface elevation and provide a copy of same to the Seller.
- 206.14 Upon completion of biosolids application to a given area, Seller shall leave the soil surface in a level condition equal to the soil surface prior to any disturbance due to the biosolids application activities or an interim condition acceptable to the property owner or operator. Seller shall be responsible for providing additional discing, dragging, or rolling operations at the completion of application projects to produce an acceptable soil surface.
- 206.15 Seller shall exercise care in use of proper equipment for biosolids application and incorporation to prevent soil compaction, cutting of deep ruts, and/or other damage that may negatively impact the establishment and perpetuation of plant cover on the referenced land application sites. Low ground pressure flotation tires are required on all vehicles spreading biosolids.
- 206.16 Seller shall exercise care to avoid damage to land, roads, fences, growing crops, and livestock which may arise out of the application of biosolids. The repair and/or replacement of any property of the landowner or operator, damaged by the Seller and/or Seller's subcontractor(s), shall be the responsibility of the Seller.
- 206.17 If more than one (1) lagoon is to be emptied under this Agreement, the City shall specify the order in which lagoons shall be emptied. Once work has commenced on the initial lagoon, it shall be completed and accepted by the City before the Seller may commence work in any subsequent lagoon covered by this Agreement.

- 206.18 When dust becomes a nuisance to plant operations, the Seller shall provide a means to wet down roads around the lagoon area. Plant effluent water from a hydrant can be used by the Seller at no charge. Coordination with City's Engineer must be made before obtaining water. Additionally, if dust becomes a nuisance at the property site where the biosolids are land applied due to the large number of trucks entering and exiting a gravel or dirt road on the field, then the Seller shall provide a water truck to wet the road to minimize the amount of dust kicked up due to the truck traffic.
- 206.19 Daily samples are required each day of land application. The City will provide the sample bottles. Two samples are to be collected at the same time each day of land application. The date, time, and lagoon number will be written on the sample bottle by the Seller, and the containers will be placed in the fridge at the Northside Operations Building.
- 206.20 The City works with a property owner that has wild livestock on their property during the land application of biosolids. The property owner requires that the gates for the fields be opened and closed behind each truck. When one of these sites are being used, the Seller will furnish a person to watch the gate while trucks enter and exit to ensure the livestock don't run out of the gate while it is being used. These fields are approximately one-third of the available property that the City must utilize.
- 206.21 The Seller shall pay particular attention to cleanout around the discharge chute of the lagoon such that once the lagoon is put back into use, the sludge is able to easily flow into the lagoon.

207.0 SCHEDULING

- 207.1 The Seller's obligation to complete the removal of material from each lagoon will be **120 calendar days** from notification in writing from the City to commence work on each lagoon.
- 207.2 The City shall schedule and perform the survey of the specific lagoon as specified in Section 214 within ten (10) calendar days from notification to commence work. The Seller shall witness said survey by signing a statement to that effect on a form provided by the City.
- 207.3 The Seller shall submit to the City's Engineer a proposed schedule for removal operations within ten (10) calendar days from the survey of the specific lagoon.
- 207.4 Survey points should be evenly distributed across the lagoons. Eleven survey points are used for the decant lagoon. Twelve survey points are used for Lagoons 3 and 4. Fifteen survey points are used for Lagoon 5.

208.0 BIOSOLIDS TRANSPORTATION

- 208.1 Any transportation of biosolids or other material by Seller shall be done in vehicles or equipment that contains the biosolids or other material in a manner to avoid the possibility of dripping, spilling, scattering, leaking, or blowing. Should mishaps occur for any reason, Seller shall be responsible for cleaning up any such biosolids or other material to the satisfaction of the City and other authorities having jurisdiction in accordance with Section 219.
- 208.2 All vehicles transporting biosolids shall not exceed the maximum allowable load limit (pounds) of any road or bridge being used.

208.3 All haul routes to and from the biosolids application sites shall be selected by the City before each trip.

208.4 Security at the facility may require badge access to enter facility gates. The Seller will ensure that all individuals needing access to the facility complete both the Access Card form and Background and Prescreen form. These forms can be obtained from the Engineer. Send the completed forms to the Engineer to get approval by the City. The Seller should try to complete these forms prior to starting the project in order to avoid delays in obtaining their personnel access to the facility.

209.0 CONFORMANCE TO SLUDGE MANAGEMENT PERMIT AND INDIVIDUAL SITE-SPECIFIC PLAN

209.1 The Seller shall operate under and in full accordance with the approved City of Tulsa Sludge Management Permit and Individual Site-Specific Plans. The Sludge Management Permit and Individual Site-Specific Plans are and will remain the property of the City of Tulsa. Copies of these plans shall be provided to the Seller. During the bidding process, these plans can be viewed at 175 E. 2nd Street, Ste. 1300, Tulsa, OK 74103.

209.2 The City will serve as primary contact with landowner/operator and will determine sites that will be utilized for biosolids application and method of biosolids application for each site in conjunction with landowner/operator. Final decision will rest with the City's Engineer as to sites utilized and application method required for each site. The City shall consider input from the Seller in arriving at said decisions.

209.3 The City has land already permitted to use for the land application projects. The Seller will not be responsible for land application permits.

210.0 SELLER COOPERATION

210.1 Seller shall cooperate with all other Sellers who may be performing services on behalf of the City and the State of Oklahoma and others who may be employed by the City or the State on any work in the vicinity of the location where Seller may be performing services under this Agreement; and Seller shall so conduct its operations to not interfere with the work of others. The City shall use its best efforts to promote cooperation between Seller and others.

211.0 SELLER CONDUCT

211.1 It is understood and agreed by Seller and City that the phrase "to the satisfaction of the City", shall not be construed to imply that the City has any supervision of Seller's forces, operations, or methods of operation.

212.0 REMOVAL OF EQUIPMENT

212.1 Seller agrees that upon termination of this Agreement, Seller, not later than thirty (30) days after such termination, (1) shall remove all its machinery, equipment, and other property from the Treatment Plant work site, (2) shall, except as may be otherwise provided in Section 212 hereof, at its own cost and expense, repair and restore all damage to City property caused by Seller or its operations, and (3) shall vacate the work site free and furnish City with satisfactory evidence of the foregoing. Title to any Seller property not removed from Treatment Plant work site within the time limit stipulated above shall vest in the City and the City may dispose of any such property at Seller's cost and expense.

213.0 UNDERTAKING BY THE CITY

- 213.1 The City shall ensure Seller and its employees or agents access to and from lagoons and the adjacent biosolids loading areas on City premises for removal operations five (5) days a week during normal work hours (Mon-Fri 7am-7pm). All other days and hours must be approved by the City's Engineer.
- 213.2 In the monitoring and inspection of Seller's performance of its Services under this Agreement, the City shall not unreasonably interfere with the removal, transportation, and disposal operations of Seller and its employees or agents. It is understood and agreed, however, that the City may appoint such inspectors as deemed proper for the inspection and monitoring of Seller's operation on the work sites on City premises or the other sites. Seller shall furnish all reasonable assistance required by the inspectors for the proper inspection and monitoring of Seller's operations at the said work sites.
- 213.3 The City hereby designates the City's Engineer to be a liaison with Seller on matters pertaining to this Agreement and said Engineer and their designated assistants and inspectors shall have the right to inspect Seller's facilities, equipment, and operations under this Agreement, whether or not such facilities, equipment, and operations are located on City premises, day or night, to insure compliance with Agreement and to insure the health and safety of employees of the City provided; however, that Seller may designate portions of its facilities which it considers proprietary and any inspections of such portions shall be made only upon written request and after a written pledge of confidentiality is given with respect to proprietary aspects of such facilities.

214.0 SURVEYING LAGOONS

- 214.1 Surveys shall be conducted by land surveyors registered in the State of Oklahoma. City will obtain the surveys using its own forces at the City's expense or if the Seller requests, an independent surveyor acceptable to Seller and the City will be hired to perform the work, expenses for which will be paid by the Seller.

If the City uses its own forces, Seller may employ an independent surveyor, at Seller's expense, to work with and verify the work of the City's forces. Any discrepancies shall be resolved before the mutually agreeable volume is calculated for the purpose of payment prior to the commencement of Services.

Copies of the City's survey notes will be made available to the Seller within five (5) business days following said survey.

Seller agrees to furnish the necessary equipment and suitably attired rod man to assist the City Survey Crew in conducting all required surveys prior to the commencement of work and upon the completion of each lagoon. Any discrepancies shall be resolved before the mutually agreeable volume is calculated for the purpose of payment prior to the commencement of work. The City and Seller will acknowledge their agents have witnessed said measurement and agree with the payable volume of material by signing the Lagoon Survey Acceptance Form provided by the City.

- 214.2 City shall determine if excessive earth has been removed from lagoon bottom and/or side slopes. City shall calculate, in cubic yards, amount of earth removed excessively and deduct this from the final payment at a rate of \$300.00/cubic yard.

214.3 The dimensions of the lagoons are stated on the Payable Volume Calculation Worksheets. Bidders shall obtain all dimensions and measurements and depths of biosolids to determine the biosolids quantity and through biosolids sampling and analyses determine pertinent biosolids characteristics for bidding purposes. The Payable Volume Calculation Worksheets is subject to change, with mutual agreement of the parties, upon new survey elevations of the lagoon's bottom elevation.

215.0 BIOSOLIDS REMOVAL BY SELLER

215.1 The City shall have the sole responsibility and risk of determining whether or not the biosolids to be removed off-site (1) complies fully with the terms of the Federal Resources Conservation and Recovery Act and its implementing regulations; (2) and meets any special disposal requirements under state and local law comparable to the disposal requirements prescribed by federal law for wastes within the terms of the Federal Resource Conservation and Recovery Act or Section 405 of the Federal Clean Water Act and 40 CFR Part 503.

215.2 The City shall have the sole responsibility and risk of establishing that the biosolids to be removed are not "nonconforming biosolids". For the purpose of this Agreement, nonconforming biosolids shall be biosolids which contain materials that are (1) toxic or otherwise hazardous as defined in 40 C.F.R. 261 promulgated by the United States Environmental Protection Agency (EPA), (2) listed as hazardous waste from non-specific sources in 40 C.F.R. 261.31 or hazardous waste from specific sources in 40 C.F.R. 261 promulgated by EPA or (3) are otherwise not suitable for disposal under applicable law. The City of Tulsa will perform all analytical testing on the biosolids. Field operations data is limited to gallons hauled per day and applied. Seller shall not require metal or nutrient testing.

215.3 Seller agrees to remove the biosolids determined by Section 204.1. Provided, however, in the event that Seller has reason to believe that the biosolids to be removed are nonconforming biosolids as defined in Section 215.2 the Seller may refuse and shall not be required to remove such biosolids if in each such instance Seller shall furnish City with the written documentation identifying such biosolids and setting forth the specific reason for Seller's refusal to remove such biosolids from City's biosolids lagoons. Should such biosolids subsequently be determined not to be nonconforming biosolids as defined in Section 215.2 Seller shall not refuse to remove the same.

215.4 For the purpose of the Agreement, Seller shall be deemed to have removed biosolids when such biosolids shall have been loaded in a suitable vehicle, transported to an approved site, and earth incorporated.

216.0 PERMITS

216.1 Seller shall comply with all necessary permits, licenses, and authorizations regarding removal, transportation, and land application of biosolids as may be required by all applicable federal, state, and local laws and regulations.

216.2 Seller will diligently pursue the issuance of required permits (if any) immediately following receipt of work order issued by the City.

217.0 ELECTRIC POWER AND WATER

217.1 Seller shall furnish all power in areas where the City does not have electric service. In areas where the City can provide power to the Seller, the City may do so at its sole discretion. In

such instances, the Seller shall make arrangements with the electric utility company to have a sub-meter installed and to pay said utility directly for the electricity used, crediting the City's account to the same extent.

- 217.2 If the Seller requires potable water at the lagoon for flotation, dilution, cleaning, etc., the Seller shall arrange with the City's Engineer for the installation of a construction water meter and the Seller shall pay all applicable deposits, connection, tum-on, turn-off, and usage fees applicable to a construction meter.

218.0 METHOD OF APPLICATION OF BIOSOLIDS

- 218.1 Method of application of biosolids will be dependent upon a variety of factors including, but not limited to, soil type, cropping plan, proximity to residential areas, soil moisture, and field condition. Seller shall have available vehicles specifically designed for application of municipal biosolids to agricultural lands. Seller will have available a tractor, a Lawson 12' by 42" single drum pull-type pasture aerator roller with transportation wheels or a City approved equivalent, a 16'-20' wide flexible wire harrow; Terra-Gator, Big A Biosolids Vehicle, AG-Chem 2004, AG-Gator equipped with both splash plates or spray bars for surface spreading to provide uniform application and grassland injectors with rolling coulters for subsurface injection of biosolids where prescribed by the City. Seller must have bleed air valves on hoses used to transfer biosolids from tankers to applicator vehicles to minimize spillage. The City of Tulsa does not provide any equipment.

- 218.2 The Seller shall mix the lagoon's contents to establish uniform percent solids to achieve a uniform rate of land application.

- 218.3 The Seller will be responsible for pasture aeration prior to land applying. The aerator must be used to aerate the site immediately prior to application (same working day).

- 218.4 The Seller will be responsible for biosolids incorporation with a chain drag or flexible wire harrow. After application of the biosolids, incorporation activities will be conducted using a chain drag or harrow. Based on weather conditions, a drag harrow must be used to enhance incorporation the same day. Incorporation shall meet the City's approval to effectively incorporate biosolids into the soil and improve site esthetics. Incorporation is required to meet the City's Vector Attraction Reduction (VAR) requirement per 40 CFR 503. The Seller shall not assume that the City meets the 38% volatile solids reduction for VAR.

- 218.5 Application equipment shall be equipped with automatic valves so that the driver is able to turn the application on or off without leaving the cab of the vehicle.

- 218.6 The City will flag buffer zones around any residence, potable water supply well, public water supply surface water intake, waterways, or public roadways. The Seller shall not land apply biosolids past those flags.

219.0 SPILL PREVENTION AND CONTROL PLAN

Seller shall adhere to the following procedures and practices to minimize the possibility of a spill and to establish an effective response in the unlikely event of a spill.

- 219.1 Spill Prevention

- a) Ensure truck drivers watch trailer while loading.
- b) Ensure tank hatches are closed and latched while transporting.

- c) Inspect tank hatches daily and replace as necessary.
- d) Inspect tank valves daily and replace as necessary.
- e) Ensure dust caps are in place while transporting.
- f) Ensure unloading operations in the field are conducted to minimize hose drainage.
- g) Establish and maintain good sanitation practices at loading and off-loading zones to avoid tracking of biosolids material onto roadways.

219.2 Spill Control

In the unlikely event of a spill, Seller shall take the following actions immediately:

- a) HALT SOURCE of spill: i.e., rupture line or valve or damaged tank unit.
- b) CONTAIN SPILL: Use straw bales to form a barrier. Straw bales shall be kept at the project site for such purposes.
- c) CLEAN UP: Employ vacuum equipment or biosolids applicator to remove as much spilled material as possible. Complete clean up by scattering straw from straw bales to soak up remaining material. Pick up straw manually and dispose of in landfill.
- d) FINAL CLEAN UP: Flush roadways with water as necessary to clean. Allow to dry and incorporate if spill occurs on a non-paved and tillable area. In the event a spill occurs on private property, final clean up should be completed immediately to the satisfaction of the owner.
- e) REPORTING: As soon as possible after the spill, notify the City of Tulsa (office of Steven Meier, Support Services Manager at (918) 596-9841) and the respective County Department of Environmental Quality office. Within twenty-four (24) hours of the spill a written report detailing how the spill occurred, and all action taken shall be sent to the City and respective County Department of Environmental Quality offices.
- f) MANAGEMENT of clean-up efforts. The Seller's project manager shall take immediate charge and initiate clean-up activities. Seller's labor shall be used. Additional labor shall be requested from the City as needed. The project manager shall also communicate with the public on the scene, answering questions and advising of clean-up activities.

220.0 WEEKLY PROGRESS REPORTS AND MONTHLY PROGRESS MEETINGS

220.1 Seller shall submit weekly written reports to the City's Engineer detailing project progress to date, problems encountered or anticipated which impact project progress, and plans for the next week's work. Project progress reports shall be due on a weekday mutually agreeable to the City and Seller and shall be specified at the Pre-work Conference. The initial project progress report will be due following the first full week after issuance of work order.

220.2 Monthly progress meetings shall be held in Tulsa between designated Seller representative(s) and City Water Pollution Control personnel or representatives when deemed necessary. The Pre-work Conference will constitute the first monthly progress meeting and subsequent meeting dates and times will be agreed upon at the Pre-work Conference, mutually agreeable to the City and Seller.

221.0 TESTING AND REPORTING REQUIREMENTS

221.1 The City shall have the responsibility for testing of the biosolids to the extent given in the City of Tulsa Biosolids Management Plan. Monitoring and Reporting of the biosolids

application shall be conducted for the purpose of regulating and varying the hydraulic loadings to approximately attain but not to exceed the annual application rates detailed in the City of Tulsa Biosolids Management Plan for the respective biosolids and for the purpose of meeting all reporting requirements. Tests will be conducted more frequently only if the biosolids characteristics are observed to materially change and the City reserves the right to suspend Seller operations pending the determination of biosolids characteristics.

Sample Analysis Reports are included for the most recent composites of Lagoon 3 and Lagoon 5 for informational purposes only at the end of the Specifications section.

- 221.2 All field operation data required for the preparation of the operating report will be kept by Seller on a daily basis and furnished to the City on a daily basis. The City shall then forward the Operating Report to the State of Oklahoma Department of Environmental Quality (ODEQ) with copies to the landowners.

Note: The record drawings and plans and Operations and Maintenance Manuals made available for this project are for information purposes only. The City makes no representation or guarantee with respect to the accuracy of any information contained therein. It is the Seller's responsibility to verify information provided to ensure compliance with requirements in accordance with this Agreement.

222.0 ADDITIONAL INFORMATION

- Total quantity of liquid biosolids removed over the course of the last five years:

2024 - 17,266,203 gallons removed at a cost of \$1,108,632.66

2023 - 35,848,194 gallons removed at a cost of \$2,302,517.84

2022 - 0 gallons removed at a cost of \$0.00

2021 - 13,090,754 gallons removed at a cost of \$574,684.10

2020 - 23,290,472 gallons removed at a cost of \$766,256.52

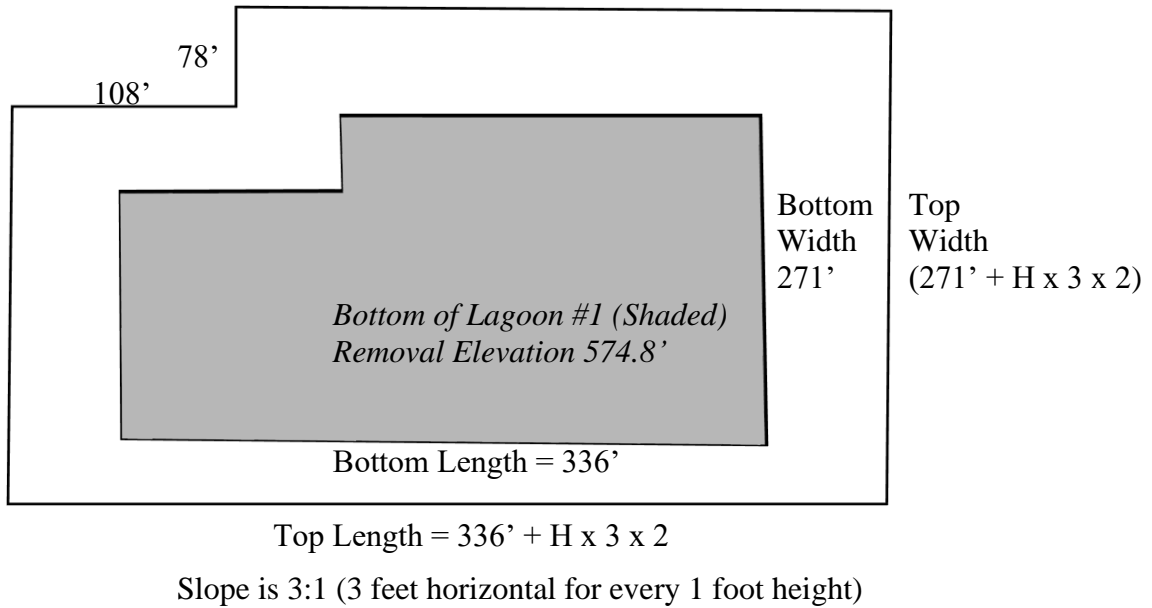

- The previous method of removal was:

A tractor and power-driven pump were used on the ramp to mix and pump out. Approved track equipment was used for the total cleanout of the bottom only.

LAGOON SURVEY ACCEPTANCE FORM

DATE: _____

PROJECT: _____

DESCRIPTION: AGREEMENT FOR LIQUID BIOSOLIDS DISPOSAL BY LAND APPLICATION
LAGOON NO. _____

LOCATION: NORTHSIDE WASTEWATER TREATMENT PLANT

CONTRACTOR: _____

REMARKS:

Survey of elevation to determine the payable volume of biosolids.

On this date, the undersigned, representing the City of Tulsa and the Seller, did witness a survey by City of Tulsa Engineering for the purpose of determining the average surface elevation of biosolids in “described” lagoon located at the Northside/Southside Wastewater Treatment Plant.

The Top of Biosolids elevation was found using _____ survey points to be _____ feet.

By using the Payable Volume Calculations Worksheet provided by the Authority,
_____ gallons of biosolids make up the payable volume.

WITNESS:

III. BID SUBMISSION INSTRUCTIONS AND INFORMATION

1. **Bidder Registration**: To ensure timely updates and alerts about business opportunities with the City, interested Bidders should register as a Bidder with the City. To register, interested Bidders should complete the City's online vendor registration form ([linked here](#)). If You have any questions, email Cheryl Quin at purchasing@cityoftulsa.org or check the City's "[Selling to the City](#)" Website.
2. **Pre-Bid Conference**: If a pre-Bid conference is required, see the first page for time and location.
No Pre-Bid Conference to be Held
3. **Questions and Concerns**: As You prepare Your Bid response, You may have questions or points of clarification around this Solicitation. Any questions or comments about this Invitation for Bid must be sent via e-mail to the buyer listed on the first page "Assigned Buyer" and be received at least **10 Days prior to the Bid Submission Date**. Please include the IFB Bid number (as indicated on the title page) on all communications. Bidders may only communicate with the City through the Assigned Buyer – communication with other City staff could result in disqualification.
4. **Issuing of Addenda**: The City may addend or amend its IFB at any time before the Bid Submission Date. In addition to registering as a Bidder with the City, Bidders can check the "Purchasing Bid Opportunities & Results" page on the City Website for the latest updates ([linked here](#)). Any such amendments shall become a part of the Agreement. You must acknowledge receipt of any Addenda or Amendments by writing in the issued Addenda numbers on Exhibit A – Delivery and Pricing. City may reject any Bid that fails to acknowledge any Addenda or Amendments.
5. **Submission and Receipt of Bids**: The City requires two completed Invitation for Bids: 1 Original and 1 Copy. Each must be clearly labeled on the front sheet indicating "Original" or "Copy." Use the Bidder Checklist to ensure Your Bid includes all required components. If a copy on electronic media is also required, the box below will be checked.

Electronic Copy also required.

Bids must be received no later than 5:00 PM (CST) on the Bid Submission Date (see first page) and delivered to:

**City of Tulsa - City Clerk's Office
175 East 2nd Street, Suite 260
Tulsa Oklahoma 74103**

Bids must be sealed and either mailed or delivered. The package, container, or envelope should contain both of Your completed Bids, the original and the copy. Please use the provided label on the last page of this IFB to clearly write the Bidder's legal name and Bid number on the outside of the package, container, or envelope. No faxed or emailed Bids will be considered.

Bids received after the stated date and time **will not be accepted**. The timestamp clock located at the City Clerk's Office on the second floor of City Hall at 175 East 2nd Street, Suite 260, Tulsa, Oklahoma, 74103 is the City's official bid clock for this IFB. Timeliness of Bid submittals will be determined using only this clock.

Exceptions to Timeliness Requirement

The Purchasing Agent, at his/her sole discretion, may make exceptions only for the following reasons:

- City Hall closed for business for part or all of the day on the date the response was due;
- If the Purchasing Agent deems it appropriate due to large-scale disruptions in supply chains and the transportation industry that may have prevented delivery as required;
- If documented weather conditions caused the late delivery. You must provide documentation of such weather to the satisfaction of the Purchasing Agent.

In the event that the Bid submittal is delivered after the time specified and does not meet the exceptions listed above, the Bid will not be accepted and the submittal envelope will not be opened.

The City will not be liable for delays in delivery of Bids to the City due to handling by the U.S. Postal Service, or any other type of delivery service. The City reserves the right to postpone the date and time for submittal of Bids at any time prior to the Bid Opening Date or to delay or reschedule the Bid Opening Date for its own convenience.

The City reserves the right to cancel, revise, or amend this IFB and associated bidding documents up to the time specified for receipt of Bids.

6. **Bid Opening**: All Bid openings are public and take place at 8:30 a.m. Thursday, the day after Bids are due. The Bid openings are held in the City of Tulsa Council Meeting Room, 175 East 2nd Street, 2nd Floor, Tulsa, Oklahoma.

THE REMAINDER OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK

IV. BID EVALUATION AND AWARD

- Bid Evaluation**: The Assigned Buyer and departmental staff will work together to determine the winning Bid. Generally speaking, the Bid award will go to the **Lowest Secure Bidder: the Supply or Service that can best meet the City's needs at the lowest cost.** In addition to price and specifications, the Buyer and departmental staff may also evaluate Bidder history and experience, delivery time, maintenance requirements, and performance data, among other factors.
- Bid Rejection or Withdrawal**: The City may reject any or all Bids in whole or in part. Reasons a Bid may be rejected include, but are not limited to the following:
 - A submitted Bid does not contain all the necessary materials, signatures, and/or affidavits (listed on the included checklist);
 - The Bid does not meet specifications and requirements in some material way;
 - The Bidder holds outstanding debt to the City;
 - The Bidder adds additional terms and conditions that modify IFB requirements or attempt to limit Bidder's liability to the City.

City reserves the right to waive minor deficiencies of specifications, technicalities or informalities in a Bid, provided that the best interest of the City would be served without prejudice to the rights of other Bidders. Bid withdrawal, meanwhile, may only be accomplished by having an Authorized Agent request the withdrawal in person at the City Clerk's office before the City's close of business on the Bid Submission Date.

- Bid Award Recommendation and Appeal**: Upon confirming the Bid recommended for selection, the Assigned Buyer will email all participating Bidders a memo announcing the recommended Bid. This email will also share the time, date, and virtual meeting link for the Standard, Specifications, and Award (SSA) committee meeting where the Bid award recommendation will be reviewed.

If approved by SSA, the award recommendation is then sent to the Mayor for the Mayor's final approval. SSA meetings are held Thursdays at 8:30am in the City of Tulsa Council Meeting Room, 175 East 2nd Street, 2nd Floor, Tulsa, Oklahoma. The meeting will be held on a given Thursday at 8:30 am, depending on when the Bid award has been determined. During this meeting, Bidders who are not recommended for award can issue an appeal and ask that the Bid award be reconsidered. Bidders who are not recommended for award can also email the Assigned Buyer prior to the SSA meeting if they have any questions or concerns regarding the award recommendation.

If/when the Bid award is approved by the SSA committee, the City will make available on the City's Purchasing Website a summary of Bids received generally within 5 working days after the Bid Opening Date. After a Bid award is recommended to the Mayor, a copy of the Bid summary will be available in the City Clerk's Office. Bid results are not provided in response to telephone or email inquiries. All Bid awards are subject to Acceptance by the City.

V. BID PROCESSING

1. **Forms, Notice to Proceed, and Irrevocability of Offer:** If the City Accepts Your Bid, You will have ten (10) Days from notification of the Acceptance to provide a completed IRS form W-9. You cannot start work until authorized to do so by the Purchasing Agent or a representative.

Bidder understands and acknowledges that the offer submitted as the Bid is firm and irrevocable from the City's close of business on the Bid Submission Date until the date the City Accepts the Bid or 365 Days after the Bid Opening Date, whichever is earlier.

2. **Purchase Order Without Contract:** If the successful Bid is less than One Hundred Thousand Dollars (\$100,000), the City, in its sole discretion, may Accept the Bid upon written approval of the Mayor rather than execute the Purchase Agreement. Instead, the City will purchase the Supplies and/or Services by issuing a purchase order. In any event, the terms of this IFB will govern the transaction and be enforceable by the City and Seller.

3. **Insurance:**

Yes: No:

Seller and its subcontractors must obtain at Seller's expense and keep in effect so long as City is purchasing Supplies or Services from Seller pursuant to this Bid, policies of insurance in the minimum amounts set forth below and Workers' Compensation and Employer's Liability insurance in the statutory limits required by law.

General Liability: personal injury and property damage, each occurrence	\$1,000,000.00
Automobile Liability: Combined Single Limit (CSL), each occurrence	\$1,000,000.00
Umbrella Coverage	\$1,000,000.00
Workers' Compensation	(Statutory limits)

Seller's insurer must be authorized to transact business in the State of Oklahoma. Seller will have 10 Days after notification that its Bid was Accepted by the City to provide proof of coverage. **The Certificate of Insurance must be completed with the following information:**

- A. Your name
- B. Insurer's name and address
- C. Policy number
- D. Liability coverage and amounts
- E. Commencement and expiration dates
- F. Signature of authorized agent of insurer
- G. Certificate Holder Information: City of Tulsa, 175 East 2nd St., Suite 260, Tulsa, OK 74103

Seller shall not cause any required insurance policy to be cancelled nor permit it to lapse. Failure of the Seller to comply with the insurance requirements may be deemed a breach of the contract.

4. **Bonding:**

Yes: No:

5. **Federal Funding:** If the box is checked "Yes," federal funding is involved with this purchase:

Yes: No:

6. **References:** If the box is checked "Yes," References are **required:**

Yes: No: If yes, number of references required: 2

For each reference, the following information must be included: Company Name, Contact Name, Address, Phone Number, E-Mail Address, and the supplies or services provided.

Company Name:	_____
Contact Name:	_____
Address:	_____
Phone Number:	(_____) _____

EXHIBIT A – DELIVERY AND PRICING

Bidder’s Legal Name: _____
 (Must be Bidder’s company name as reflected on its organizational documents, filed with the state in which Bidder is organized)

Delivery: If Your Bid is Accepted, state the number of Days You need to deliver the Supplies and/or to begin providing Services: _____

You must be able to deliver the Supplies and/or Services as specified in Your Bid. Failure to do so may result in City terminating the Agreement and pursuing collection under any performance bond, as well as seeking any other damages to which it may be entitled in law or in equity.

Pricing:

Bidder must Bid on each item to be considered responsive.

Item	Description	Est. Annual QTY	Unit Cost	Extended Cost
204.1	Labor, equipment, and materials necessary for partial cleanout of biosolids contained within the Northside Lagoon per these purchase agreement documents. Bid is Unit Price per Gallon	19,000,000 (Gallons)	\$	\$
204.2	Labor, equipment, and materials necessary for cleanout of biosolids below 204.1.1 elevations contained within the Northside Lagoon per these purchase agreement documents. Bid is Unit Price per Gallon	1,000,000 (Gallons)	\$	\$
204.3	Cost per mile for each 1,000 gallons hauled further than 40-mile round trip haul route included per these purchase agreement documents. Bid is Price for 1,000 Gallons per Mile.	230,000 (1,000 gal/mile)	\$	\$
TOTAL EXTENDED COST NOT TO EXCEED: (All costs must be included or Your Bid will be disqualified)			\$ _____	

THE CITY DOES NOT GUARANTEE ANY SPECIFIC QUANTITY OR NUMBER OF PURCHASES, IF ANY, THAT WILL BE MADE DURING THE AGREEMENT TERM.

Annual Price Adjustment. The prices bid for any Supplies and/or Services shall not increase during the first year of the term of the Agreement. However, if You anticipate that You will not be able to maintain firm prices after the first year of the term, You may request an annual change in price using one of the following methods. **The Increase shall be limited to the lesser of:**

- a. The change in the Consumer Price Index from BLS Table 1* (web link below) from the prior year
- b. Or the following fixed percentage: _____ %.

PURCHASE AGREEMENT

(Page 1 of 5)

INSTRUCTIONS: Bidder must properly sign and return this document or Bid may be **rejected**. Your signature on this document indicates You have read and understand these terms and conditions and agree to be bound by them.

THIS PURCHASE AGREEMENT is between the CITY OF TULSA, OKLAHOMA, a municipal corporation, 175 East 2nd Street, Tulsa, Oklahoma, 74103-3827 (the "City") and:

(Bidder's company name as reflected on its organizational documents filed with the state in which Bidder is organized; not simply DBA and address) (the "Seller").

WITNESSETH:

WHEREAS, the City has approved certain specifications and advertised for or solicited Bids on the following supplies or services:

TAC 838i – Northside Liquid Biosolids Disposal by Land Application

(the "Supplies and/or Services").

WHEREAS, Seller submitted a Bid and desires to provide the Supplies and/or Services to City;

WHEREAS, Seller acknowledges that its signature on this Purchase Agreement constitutes an irrevocable offer to provide the Supplies and/or Services specified in the Agreement and that if Accepted by the City's Mayor, this document will become the contract for such Supplies and/or Services.

NOW, THEREFORE, for and in consideration of the terms, covenants and conditions hereinafter set forth, the parties hereto agree as follows:

1. Definitions.

- 1.1. **"Acceptance" or "Accepts"** with respect to a Bid means either (1) City's execution of the Purchase Agreement, or (2) Mayor's written approval of the Bid award recommendation and issuance of a purchase order on behalf of the City if the purchase is for an amount less than One Hundred Thousand Dollars (\$100,000) and the City determines it is in its best interests.
- 1.2. **"Acceptance"** with respect to delivery of the Supplies and/or Services shall mean City's written acknowledgment that Seller has satisfactorily provided such Supplies and/or Services as required.
- 1.3. **"Addenda" "Addendum" or Amendment(s)"** means a clarification, revision, addition, or deletion to the Invitation for Bid by City which will become a part of the agreement between the parties.
- 1.4. **"Agreement"** consists of the Invitation for Bid and the Purchase Agreement.
- 1.5. **"Bid Opening Date"** means the date the Bid is opened by the City.
- 1.6. **"Bid Submission Date"** means the date the Bid is due from Bidder to the City.
- 1.7. **"City"** means the City of Tulsa, Oklahoma.
- 1.8. **"Days"** means calendar days unless otherwise specified.
- 1.9. **"Invitation for Bid" or "IFB"** consists of the following documents: Cover page, Sections I-VI, Exhibit A – Delivery and Pricing, Affidavit(s), Purchase Agreement, and Bidder Checklist.
- 1.10. **"Primary Seller"** means the Seller whose Bid City Accepts as the principal seller of the Supplies and/or Services required.
- 1.11. **"Purchasing Ordinance"** means Tulsa Revised Ordinances, Title 6, Chapter 4 et seq.
- 1.12. **"Secondary Seller"** means the Seller whose Bid City Accepts as a back-up seller in the event the Primary Seller is unable to provide all the Supplies and/or Services.
- 1.13. **"Seller"** means the Bidder whose Bid City Accepts.
- 1.14. **"Specifications"** means the technical and/or performance requirements for the Supplies or Services.
- 1.15. **"You" or "Your"** means the Bidder responding to this Invitation for Bid or the Seller whose Bid the City Accepts.
- 1.16. **"Website"** means the City of Tulsa's website for the Purchasing Division: www.cityoftulsa.org/purchasing

2. **Order of Precedence.** Capitalized terms used but not defined herein will have the respective meanings given to them in the Purchasing Ordinance. In the event of conflicting or ambiguous language between this Purchase Agreement, any of the other Agreement documents, and additional information submitted by the Seller and Accepted by City, the parties shall be governed first according to this Purchase Agreement, second according to the remainder of the documents included in the Agreement and third according to any additional information submitted by Seller and Accepted by City.

3. **Purchase and Sale.** Seller agrees to sell City the Supplies and/or Services for the price and upon the delivery terms set forth on Exhibit A – Delivery and Pricing. City agrees to pay Seller the price as set forth in Exhibit A based on (a) the quantity actually purchased in the case of Supplies and/or Services priced by unit, or (b) the total price for a stated quantity of Supplies and/or Services, upon (i) delivery of the Supplies and/or Services to the City, (ii) the City's Acceptance thereof, and (iii) Seller's submission and City's approval of a verified claim for the amount due. City shall not pay any late charges or fees.

PURCHASE AGREEMENT

(Page 2 of 5)

- Term.** The term of the Agreement begins on the date the Mayor/Mayor Pro Tem of the City of Tulsa executes this Purchase Agreement and terminates one year from that date. City in its sole discretion may offer Seller an opportunity to renew this Agreement up to an additional four (4) one (1) year term(s). Seller understands and acknowledges that any future contracts or renewals are neither automatic nor implied by this Agreement. City's continuing purchase of the Supplies and/or Services set forth in this Agreement is subject to City's needs and to City's annual appropriation of sufficient funds in City's fiscal year (July 1st to June 30th) in which City purchases Supplies and/or Services. In the event City does not appropriate or budget sufficient funds to perform this Agreement, this Agreement is null and void without further action by City.

The City may extend the Agreement for ninety (90) days beyond a final renewal term at the price and upon the delivery terms set forth on Exhibit A – Delivery and Pricing. The City, at its sole option and to the extent allowable by law, may choose to exercise subsequent ninety (90) day extensions upon the price and upon the delivery terms set forth on Exhibit A – Delivery and Pricing to facilitate the finalization of related terms and conditions of a new award or as needed for transition to a new Seller.

- Supplies Warranty.** With respect to all Supplies to be delivered under this Agreement, Seller warrants to City that such Supplies will be of good materials and workmanship and free from defects and will conform to the Specifications provided by City. In addition, Seller shall assure that the Supplies purchased hereunder are covered by all available and applicable manufacturers' warranties for such Supplies and expressly agrees that it will be responsible for performing all warranty obligations set forth in the Specifications for the Supplies.
- Services Warranty.** With respect to all Services to be performed under this Agreement, Seller warrants that it shall perform the Services using personnel of required skill, experience, and qualifications and in a professional and workmanlike manner in accordance with generally recognized industry standards for similar services and in accordance with the Specifications provided by City.
- Warranty Period.** Seller agrees that all warranties set forth herein will remain in effect for a period of one (1) year from the date City Accepts the Supplies and/or Services, or as specified in the Specifications, whichever is later. Seller shall not disclaim or otherwise limit the express warranties set forth herein.
- Warranty Remedies.** City shall notify Seller if any of the Supplies and/or Services fails to meet the warranties set forth above. If the failure is with Supplies, then Seller shall promptly correct, repair or replace such Supplies at its sole expense and/or if the failure is with a Service, then Seller shall promptly reperform such Service at Seller's sole expense. Notwithstanding the foregoing, if City determines that such Supplies and/or Services are defective or non-conforming within the first thirty (30) Days after the date of Acceptance by City, then Seller at City's option shall refund the entire purchase price, and, in the case of Supplies, City shall promptly return such Supplies to Seller. Seller shall pay all expenses related to the return of such Supplies to Seller.
- Rejection, Seller Bears Risk.** All Supplies and Services purchased in the Agreement are subject to approval by the City. Rejection of Supplies or Services, resulting because of nonconformity to the terms, conditions, and Specifications of this Agreement, whether held by the City or returned, will be at Seller's risk and expense. Seller shall bear the risk of loss or damage at all times until the Acceptance of the Supplies or Services by City.
- Force Majeure.** Seller will not be responsible for delays in delivery of the Supplies or Services due to acts of God, government action or inaction, fire, war, or riot, provided Seller notifies the City immediately, in writing of such pending or actual delay. Normally, in the event of any such delays (acts of God, etc.) the date of delivery of the Supplies or Services will be extended for a period equal to the time lost due to the reason for delay.
- Conflict of Interest.** By signing this Purchase Agreement, Seller covenants that it has no direct or indirect pecuniary or proprietary interest, and that it shall not acquire an interest that conflicts in any manner or degree with the Supplies or Services required to be provided or performed under the Agreement. Furthermore, Seller shall not employ any person or agent having any such conflict of interest. In the event that the Seller or its agents, employees or representatives hereafter acquires such a conflict of interest, it shall immediately disclose such interest to the City and take action immediately to eliminate the conflict or to withdraw from this contract, as the City requests.
- No Indemnification by City.** Seller understands and acknowledges that City is a municipal corporation that is funded by its taxpayers to operate for the benefit of its citizens. Accordingly, and pursuant to Oklahoma law, City shall not indemnify nor hold Seller harmless for loss, damage, expense or liability arising from or related to this Agreement, including any attorneys' fees and costs. In addition, Seller shall not limit its liability to City for actual loss or direct damages for any claim based on a material breach of this Agreement. City reserves the right to pursue all legal and equitable remedies to which it may be entitled.
- Liability/Indemnification.** Seller shall hold City harmless for any loss, damage or claims arising from or related to its performance of the Agreement. Seller must exercise all reasonable and customary precautions to prevent any harm or loss to all persons and property related to the Agreement. Seller agrees to indemnify and hold the City harmless from all claims, demands, causes of action or suits of whatever nature arising out of the Supplies, Services, labor, or materials furnished by Seller or Seller's subcontractors under this Agreement. In addition, Seller agrees to indemnify, defend, and save harmless City and its officers, employees and agents from all suits and actions of any nature brought against them due to the use of patented appliances, products or processes provided by Seller hereunder. Seller shall pay all royalties and charges incident to such patents.

PURCHASE AGREEMENT

(Page 3 of 5)

14. **No liens.** Pursuant to City's Charter (Art. XII, §5), no lien of any kind shall exist against any property of City. Seller shall deliver all Supplies to City free and clear of liens. Delivery by Seller to City of Supplies which are subject to liens shall be a material breach of the Agreement and all damages and costs incurred by City because of the existence of such liens shall be paid to City by Seller. At City's option, City may return such Supplies to Seller and Seller shall pay the cost of returning such Supplies and reimburse City for any payments made for such Supplies.
15. **No Insurance by City.** If City is leasing Supplies herein, City shall not be required to obtain insurance for Seller's property. Seller shall be solely responsible for any insurance it deems necessary. City is self-insured for its own negligence, subject to the limits of the Governmental Tort Claims Act (51 O.S. § 151 et seq.).
16. **No Confidentiality.** Seller understands and acknowledges that City is subject to the Oklahoma Open Records Act (51 O.S. §24A.1 et seq.) and therefore cannot assure the confidentiality of this Agreement or other information provided by Seller pursuant to this Agreement that would be inconsistent with City's compliance with its statutory requirements thereunder.
17. **Compliance with Laws.** Seller shall comply, and ensure its subcontractors used in the performance of this Agreement comply with all applicable federal, state and local laws, regulations and standards. Seller is responsible for any costs of such compliance. Seller certifies that it and all its subcontractors to be used in the performance of this Agreement are in compliance with 25 O.S. Sec. 1313 and participate in the Status Verification System. The Status Verification System is defined in 25 O.S. Sec. 1312 and includes but is not limited to the free Employee Verification Program (E-Verify) available at www.dhs.gov/E-Verify.
18. **Termination.** City, by written notice, may terminate this Agreement, in whole or in part, when such action is in the best interest of City. If City terminates this Agreement, City shall be liable only for payment for Supplies accepted and Services rendered prior to the effective date of termination. City's right to terminate this Agreement is cumulative to any other rights and remedies provided by law or by this Agreement.
19. **Payment.** Invoices should be e-mailed to the City of Tulsa – Accounts Payable at: apinvoices@cityoftulsa.org. Payment will be made net 30 days after receipt of a properly submitted invoice or the City's Acceptance of the Supplies or Services, whichever is later.

Each invoice must be fully itemized, identifying Supplies provided and/or Services performed, and must bear the purchase order number assigned by the City.

The purchase order number shall appear on all invoices, packing lists, packages, shipping notices, instruction manuals and other written documents relating to the Supplies or Services. Packing lists shall be enclosed in each and every box or package shipped pursuant to this Agreement, indicating the content therein.

20. **Price Changes.** The parties understand and agree that the variables in Seller's cost of performance may fluctuate, but any change in Seller's cost of performance will not alter its obligations under this Agreement, nor excuse performance or delay on Seller's part. Notwithstanding the foregoing, after the first year of the term, the Seller may request a price increase in addition to any other price increase set forth in this Agreement. In its sole discretion, the City may approve the request if it determines that such price increase is in the City's best interest.
21. **Right to Audit.** Seller agrees that Seller's books, records, documents, accounting procedures, practices, price lists or any other items related to the Supplies and/or Services provided hereunder are subject to inspection, examination, and copying by City or its designees. City requires Seller to retain all records related to this Agreement for the duration of the term of this Agreement and a period of three years following completion and/or termination of the Agreement. If an audit, litigation or other action involving such records begins before the end of the three-year period, Seller shall maintain the records three years after the date that all issues arising out of the action are resolved or until the end of the three-year retention period, whichever is later.
22. **Notice.** Any notice, demand, or request required by or made pursuant to this Agreement will be deemed properly made if personally delivered in writing or deposited in the United States mail, postage prepaid, to the following:

To Seller:

To CITY:

Contact for Legal Notice as specified on Exhibit A – Delivery and Pricing form.
City Clerk
CITY OF TULSA, OKLAHOMA
175 E. 2nd Street, Suite 260
Tulsa, Oklahoma 74103

With a copy to:

Tulsa Purchasing Division
175 E. 2nd Street, 15th Floor
Tulsa, OK 74103

23. **Relationship of Parties.** The Seller is and shall always remain an independent contractor with respect to activities and conduct while engaged in the performance of services for the City under this Agreement. No employees, subcontractors or agents of the Seller will be deemed to be employees of the City for any purpose whatsoever, and none will be eligible to participate in any benefit program provided by the City for its employees. The Seller shall be solely responsible for the payment of all employee wages and

PURCHASE AGREEMENT

(Page 4 of 5)

salaries, taxes, withholding payments, fringe benefits, insurance premiums, continuing education courses, materials or related expenses on behalf of its employees, subcontractors, and agents. Nothing in this Agreement will be construed to create a partnership, joint venture, or agency relationship among the parties. No party will have any right, power or authority to act as a legal representative of another party, and no party will have any power to obligate or bind another party, or to make any representations, express or implied, on behalf of or in the name of the other in any manner or for any purpose whatsoever.

24. **Third Parties.** This Agreement is between City and Seller and creates no right unto or duties to any other person. No person is or will be deemed a third-party beneficiary of this Agreement.
25. **Time of Essence.** City and Seller agree that time is deemed to be of the essence with respect to this Agreement. The Agreement is subject to cancellation by the City for Seller's failure to deliver on time. All deliveries are required F.O.B to the City's facilities. For any exception to the delivery date specified in the Agreement, Seller shall give prior written notification and obtain written approval from the City. The Acceptance by the City of later performance with or without objection or reservation shall neither waive the City's right to claim damages for such breach nor constitute a waiver of the requirements for the timely performance of any obligation remaining to be performed by Seller.
26. **Binding Effect.** This Agreement shall be binding upon City and Seller and their respective successors, heirs, legal representatives and permitted assigns.
27. **Headings.** The headings used herein are for convenience only and will not be used in interpreting this Agreement.
28. **Severability Provision.** If any term or provision herein is determined to be illegal or unenforceable, the remainder of this Agreement will not be affected thereby. It is the intention of the parties that if any provision is held to be illegal, invalid or unenforceable, there will be added in lieu thereof a provision as similar in terms to such provision as is possible to be legal, valid and enforceable.
29. **Governing Law and Venue.** This Agreement is executed in and shall be governed by and construed in accordance with the laws of the State of Oklahoma without regard to its choice of law principles, which shall be the forum for any lawsuits arising under this Agreement or incident thereto. The parties stipulate that venue is proper in a court of competent jurisdiction in Tulsa County, Oklahoma and each party waives any objection to such venue. City does not and will not agree to binding arbitration of any disputes.
30. **No Waiver.** A waiver of any breach of any provision of this Agreement shall not constitute or operate as a waiver of any other provision, nor shall any failure to enforce any provision hereof operate as a waiver of the enforcement of such provision or any other provision.
31. **Entire Agreement.** The entire agreement between City and Seller is contained in the Agreement. No verbal agreement between the parties is binding. Any scope of services, scope of work, quote, invoice, acknowledgment or other communication or other document issued by Seller in connection with this Agreement will be for the purposes of describing in greater detail the Supplies and/or Services (as applicable) to be provided. Seller's rejection or modification of the terms set forth in the City's IFB is void and of no effect, unless any such modification improves upon the City's terms or Specifications, in which case the improvement is accepted. Seller understands and acknowledges that if it adds terms and conditions to its Bid that are different from the terms set forth herein that City may reject the Bid as non-responsive.
32. **Amendment/No Assignment.** The Agreement may only be modified or amended in a writing signed by both parties. Notwithstanding anything to the contrary stated herein or in the attachments to this Agreement, no future agreements, revisions or modifications that may be required under this Agreement are effective or enforceable unless such terms, revisions or modifications have been reduced to writing and signed by City and Seller. Seller may not assign this Agreement or use subcontractors to provide the Supplies and/or Services without City's prior written consent. Seller shall not be entitled to any claim for extras of any kind or nature.
33. **Multiple Counterparts.** This Purchase Agreement may be executed in several counterparts, each of which will be deemed an original, but which together will constitute one and the same instrument.
34. **Interpretive Matters and Definitions.** The following interpretive matters shall be applicable to this Agreement:
 - 34.1. Unless the context otherwise requires: (a) all references to Sections are to Sections of or to this Agreement; (b) each term defined in this Agreement has the meaning assigned to it; (c) "or" is disjunctive but not necessarily exclusive; (d) words in a singular include the plural and vice versa. All references to "\$" or to dollar amounts shall be in lawful currency of the United States of America;
 - 34.2. No provision of this Agreement will be interpreted in favor of, or against, any of the parties hereto by reason of the extent to which such party or its counsel participated in the drafting thereof or by reason of the extent to which any such provision is inconsistent with any prior draft hereof or thereof;
 - 34.3. Any reference to any applicable laws will be deemed to include all rules and regulations promulgated thereunder and judicial interpretations thereof, unless the context requires otherwise;

PURCHASE AGREEMENT

(Page 5 of 5)

- 34.4. The word "including" means "including, without limitation" and does not limit the preceding words or terms; and
- 34.5. All words used in this Agreement will be construed to be of such gender, number or tense as circumstances require.
35. **Equal Employment Opportunity.** Seller agrees to comply with all applicable laws regarding equal employment opportunity and nondiscrimination.
36. **Authority to Bind.** The undersigned individual states that s/he has authority to bind Seller to this Agreement, that s/he has read and understands the terms of this Agreement, and that Seller agrees to be bound by this Agreement.

IMPORTANT NOTE: This document must be signed by Authorized Agent. FAILURE TO SUBMIT PROPERLY AUTHORIZED SIGNATURE MAY RESULT IN YOUR BID BEING REJECTED AS NONRESPONSIVE.

IN WITNESS WHEREOF, this Agreement has been executed in multiple copies on the dates set forth below to be effective during the period recited above.

BIDDER CHECKLIST

Use this checklist to ensure You have properly read and completed **all** documents listed below. This document (the IFB) contains all the following materials, which must be completed and returned to the City of Tulsa City Clerk’s Office in a mailed envelope with the affixed packing label (found on the last page). Each of these documents will form the resulting Agreement between the City and Seller.

Remember: Bids must be sealed and either mailed or delivered. Please use the provided label to clearly write the Bidder legal name and Bid number on the outside of the package, container, or envelope. The package, container, or envelope should contain both of Your completed Bids, the original and the copy. No faxed or emailed Bids will be considered. Unless otherwise stated herein, Bids received after the stated date and time **will not be accepted**.
