At the sole discretion of the City, sections of the IFB may be awarded to multiple Sellers. It is preferred that Sellers provide a Bid on all items in the IFB, however, Sellers must provide a Bid for all items in any given section of the Exhibit A – Delivery and Pricing that they wish to be considered for award. Seller will not be considered for award for any section where Seller fails to Bid all items within that section.

If an item listed in the TAC 1228D Worksheet is no longer available, then a substitution may be suggested by the Seller for approval by the Traffic Engineer, but specifications and cut sheets on the replacement product **must be submitted with the Bid. The Seller will not be considered for award for any section where Seller offers a substitution for an item but fails to provide specifications and cut sheets for the proposed substitution.**

You must be able to deliver the Supplies and/or Services as specified in Your Bid. Failure to do so may result in City terminating the Agreement and pursuing collection under any performance bond, as well as seeking any other damages to which it may be entitled in law or in equity.

Extended totals from Seller's TAC 1228D Worksheet must also be filled in on Seller's Exhibit A Pricing Total Cost By Section Summary table. Failure to do so may cause Seller's Bid to be deemed non-responsive.
