

How To Set Up Parkmobile Wallet

1

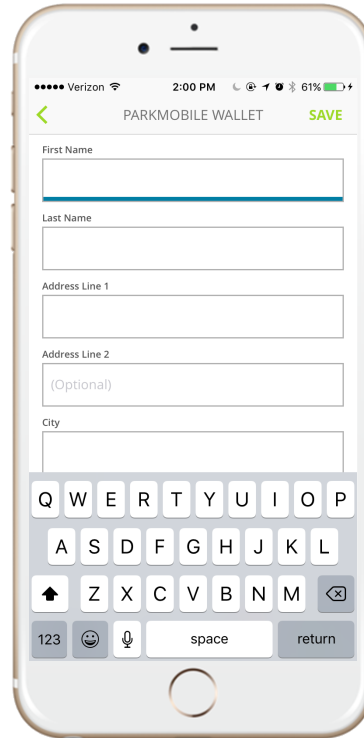

In the "More" tab, select "Payment Methods" from the menu

2

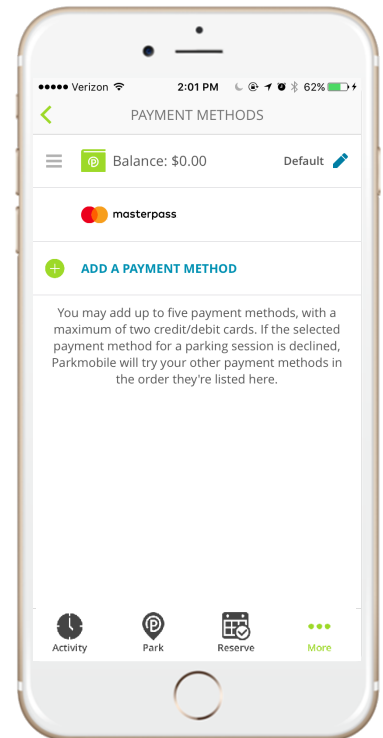

Click directly on the Parkmobile Wallet graphic or choose "Add a Payment Method"

3

Enter in your information to set up your Wallet account, and choose your load amount (\$25, \$50, or \$75)

4

The Wallet will automatically be your default payment method, except in locations where it is not accepted

Please note, after you select the Wallet, you will see a balance of \$0.00. When you start a parking transaction in an area that accepts the Wallet, we'll charge your credit card on file the load amount you selected, and your parking transactions will be deducted from that balance going forward

ParkMobile Wallet Perks

- Discounted Parkmobile convenience fees (in select areas)
- Easier to keep track of your spending with only one transaction for each Wallet load
- Your Wallet automatically reloads when it reaches \$0
- Cancel your Wallet at any time. Any unused balance will be refunded to the primary payment method on your account
